
purite analyst

The Purite Analyst is a compact unit ideal for laboratory use, delivering a steady supply of > 1MΩ.cm pure water for laboratory tasks using carbon pre-treatment, reverse osmosis and deionisation. Typical applications include glassware rinsing, buffers and stains, reagent make-up, and media preparation.

Additional features

- Guaranteed > 1MΩ.cm water quality
- Remote display (optional)
- ECO option now available offering 50% recovery which equates to a significant reduction in water usage and waste
- WiFi enabled for remote monitoring and operation.

purite storage tanks

The Purite storage tank range stores the purified water externally to the unit. Level switches ensure the tank does not overflow and refills when low.

The range includes four models that offer either 50 or 100 litre working volume, tank with UV, and tank with high flow outlet.

As well as Purite storage tanks we can supply on-demand pumps to provide a pressurised feed from the tanks.
