## Lab Instruments 2014

Thermo Shaker

BlockThermostats

3D Shaker

Orbital Shaker

Aspiration Systems

## Discover the DITABIS product range as your reliable partner in the lab:

### About us

DITABIS stands for customized development and production of devices and system components for medical industry and Life Sciences.

S. 3

### Multifunctional Thermo Shaker

All-in-One: heating, cooling and shaking with one single unit – Thermo Shaker support your applications.

S. 4-8

### Basic Thermo Shaker

Basic functions: heating, mixing and timer.

S. 9

### BlockThermostats

Accurate heating and cooling of samples – with a simple Heating Thermostat or the flexible cooling unit with two blocks.

S. 10-11

### Exchangeable blocks & accessories

40 different exchangeable blocks suitable for all DITABIS Thermo Shaker and BlockThermostats.

S. 12-17

### 3D and Orbital Shaker

3D and Orbital Shaker – allrounders in Life Sciences, Diagnostics, Food Science and Chemistry.

S. 18-21

### Aspiration Systems

Vacuum Aspiration Systems – simple, automatic or even multi-user systems.

S. 22-27

## **Decades of experience in lab & medical instruments**

DITABIS stands for custom-made development and production of devices and system components in highly regulated markets in medical industry and Life Sciences industry.

Our sales and OEM partner in Diagnostics, medical instruments and Lab technology especially appreciate our understanding of applications and our technical competences, which are reflected in clever device concepts.

The devices developed to series-production readiness by us are produced in highest quality – for successful products worldwide!

### **Extensive industry experience**

For more than 15 years, our engineers and scientists have been available as competent partners in design, development and production of our projects.

### **Flexible and customer-oriented**

Small and agile: benefit from the flexibility of a small and dedicated company and capture the market quickly and with customized systems. Short communication channels and intensive cooperation result in highly efficient processes.

### **Perfect all-around care**

For customer-specific demands in specific market segments, DITABIS is the perfect partner for integrated solutions. Electronic engineers, design engineers and software developers, scientists and product managers keep an eye on the market optimization of the products. With well-known partners, several successful projects have been realized and established in the market. Our in-house production staff attaches great importance to extensive final testing pursuant to international quality standards.

# Multifunctional Thermo Shaker

## All sample formats

More than 40 blocks suitable for all applications.

## Secure sample preparation

10-point-calibration. Temperature accuracy covering the complete tempering range.

## Double sample volume

2-block system.

## Application diversity

Programmable temperature and mixing profiles, USB connection.

## Saving of time

Very fast heating and cooling rates:  $>11,5^{\circ}\text{C}/\text{min}$ .

# Control Panel

## From simply practical to highly flexible – Smart Control

Program up to 9 complete programs with 30 program steps and temperature curves in total – exactly tailored to your application. The application variety is rounded out by the short mix function e.g. for vortexing as well as interval shaking. The direction of rotation is switchable by the software.

DITABIS speaks your language: the intuitive menu navigation is available in English, French, Spanish and German.

Constant overview of your process at any time: with the detailed information on the display you always have an overview of the following values:

22,6 °C    Set: 0,0 °C  
350 rpm    Set: 350 rpm  
100% Short-Mix  
time rem.: 01:00    Set: 01:00  
process without program    B1

- Actual and set temperature
- Actual and set shaking frequency
- Actual and set time
- Program number, cycle, step

## Parameters for programming

|                                      |                   |
|--------------------------------------|-------------------|
| Program no.                          | 1-9               |
| Number of cycles                     | 1-9               |
| Program steps                        | 30                |
| Progress time hours                  | 0-99 h / infinite |
| Progress time minutes                | 0-59 min          |
| Set temperature                      | -10°C bis +137°C  |
| Rise time                            | 0-99 min          |
| Shaking frequency                    | 200 bis 1.500 rpm |
| Interval shaking, standstill (pause) | 0,0 - 9,9 min     |
| Interval shaking, mixing             | 0-9 sec           |

Navigate through the intuitive menu with only five key elements and adjust the 10 parameters to your application – this comfort is unsurpassable.

## Remote Software

Art.-no. 300040013

You can use the DITABIS **Remote Control and Data Logging** Software to regulate and control the devices. A USB connection to communicate with a PC is standard for all Thermo Shakers and BlockThermostats with Smart Control.

By using a script the device can be operated by remote control and process data of the device can be gained and documented in an Excel file.

# The Basic Thermo Shaker with Easy Control

## Simply practical – Easy Control

### No complex process cycle needed?

Then Easy Control is the perfect partner for the simple and fast handling of your samples. You are able to choose if the set value or the actual value should be displayed. The shaking rate is easily adjustable via a scaled slider.

### Parameters for programming

|                               |                  |
|-------------------------------|------------------|
| Progress time hours           | 0-19 h           |
| Progress time minutes         | 0-59 min         |
| Set temperature               | +3°C bis +130°C  |
| Shaking frequency (at MHR 11) | 80 bis 1.500 rpm |

With the time, the process time can be set up to 19 h and 59 min. The selected time starts when the set value is reached and the heater switches off at the end of the selected time.

## Basic Thermo Shaker MHR 11

Art.-no. 980323001

- Temperature working range: RT. +3°C ... +130°C
- Saving of time: Very fast heating rates >11,5°C/min

#### Technical specification

|   |                     |

# Exchangeable thermoblocks

## All sample formats

More than 40 standard blocks and custom-made blocks at best prices.

## Autoclavable blocks

Solid block construction.

## Plug and Play

Easy and fast exchanging – suitable for all devices.

## Application diversity

Accessories like Insulating top and Anti-condensation plate and so on.

# Exchangeable thermoblocks

## Exchangeable thermoblocks for Thermo Shaker and BlockThermostats

Select the one applicable for you from more than 40 different exchangeable blocks. Quick and simple handling: they are simply inserted and fixed on top of the heating and cooling units. The blocks are suitable and exchangeable for all Thermo Shakers and BlockThermostats listed in this catalogue.

Our blocks have consistent outside dimensions of 14,5 x 10,2 cm. The usable area here is 12,5 x 8,5 cm. The height varies with each block.

**You don't know which block is suitable for your tubes? Please contact us and we help you to choose the best fitting block.**

No suitable one there for your application? Do not hesitate to contact us, we will prepare a cost-effective offer for any special block. Phone +49 (0) 7231 - 29 863 00 / Email: [sales@ditabis.de](mailto:sales@ditabis.de)

# Exchangeable thermoblocks

## Accessories for Thermo Shaker & BlockThermostats

These accessories are suitable for all Thermo Shakers and Block Thermostats listed in this catalogue.

Anti-condensate plate

- *For blocks with micro tubes or test plates*
- *Aluminum plates quickly reach the block temperature and prevent condensation*

| Article no. | Article description |
|-------------|---------------------|
|-------------|---------------------|

|           |  |
|-----------|--|
| 800013000 | Block for PCR und microtier plates (see catalogue page 15) |
| 800012900 | Block for microtubes (see catalogue page 15)               |

Insulating top

- *Additional insulation provided by cover*
- *Quicker and even more uniform tempering of the samples*

| Article no. | Article description |
|-------------|---------------------|
|-------------|---------------------|

|           |   |
|-----------|---|
| 800012800 | Insulating top for microtubes (see catalogue page 15) |
|-----------|---|

Tempering cover

- *Especially for high tubes*
- *Reduces the influence of the surrounding temperature*

| Article no. | Article description |
|-------------|---------------------|
|-------------|---------------------|

|           |  |
|-----------|--|
| 800013800 | Tempering cover for units with one block and high tubes  |
| 800013900 | Tempering cover for units with two blocks and high tubes |

Heating top

- *Connection only to DITABIS cooling units (220 W)*
- *For blocks of micro tubes & PCR plates*
- *Parallel heating of the block or even quicker heating and prevention of condensation*

| Article no. | Article description |
|-------------|---------------------|
|-------------|---------------------|

|           |             |
|-----------|-------------|
| 800012500 | Heating top |
|-----------|-------------|

Assembly rack

- *Simple tool for the loading of sample tubes into the block*

| Article no. | Article description |
|-------------|---------------------|
|-------------|---------------------|

|           |                                       |
|-----------|---------------------------------------|
| 800013100 | Assembly rack for tubes 0.5 ml        |
| 800014300 | Assembly rack for tubes 1.5 and 2.0 l |

**NEU!**

## All sample formats

More than 7 platforms suitable for your applications.

## Solid metal housing

High temperature durability and longevity.

## Application diversity

Angle of slope 4° / 8° as well as two platform sizes.

# Aspiration Systems

## High ease of use

Quick-lock-adaptors serially for faster bottle removal.

## Space saving

Small device footprint.

## Application diversity

Aspirators for all applications with Luer-Lock adapters.

## Secure aspiration

Individual flow control and level control.

# Aspiration Systems

## Multifunctional Aspiration Systems AA 02 / 04 und AA 24

- **High aspiration speed and final vacuum**
- **Standard Luer-Lock connections**

### Components

- Automatic membrane vacuum pump (17 l / min air, 100 mbar abs.)
- 2 l or 4 l bottle incl. Quick-lock-adaptors, filter, ventilation insert & 3 ml silicon hose
- Adjustable Handle

Dimensions: 170 x 220 x 155 mm

Electric power: 100 W

Power supply: 230 V, 50 Hz

### Article no. Article description

981323101 AA 02 Aspiration system with 2 l bottle

981323001 AA 04 Aspiration system with 4 l bottle

- **Automatic vacuum pump**
- **Two users one price**

### Standard for 2 users: components AA 24

- Automatic membrane vacuum pump (17 l / min air, 100 mbar abs.)
- 4 l bottle incl. Quick-lock-adaptors, filter, ventilation insert & 3 ml silicon hose
- 2 adjustable Handles
- Y-distributor

Dimensions: 170 x 220 x 155 mm

Electric power: 100 W

Power supply: 230 V, 50 Hz
